Callaham S Model Pickguard Shield \$13.00

(this shield fits: vintage 50's 8-hole pattern and vintage 59-63's 11-hole pattern. And you can easily modify it to fit other patterns

<http://www.callahamguitars.com/partsstr.htm>

Callaham Full Aluminum Pickguard Shield (same)

<http://www.callahamguitars.com/partspri.htm>

These are made from 0.014 thick 6061-T6 aluminum just like what was used on the early 60's strats. We have made them more versatile by incorporating both the 50's 8-hole pattern and the early 60's 11-hole pattern. It is designed to work with almost anybody's traditional strat® guard, with slightly larger holes for clearance. This shield is far superior to foil by allowing you to tighten pots and switches firmly without fear of breaking through a thin foil. You will no longer need ground straps from pot to pot thus eliminating a potential ground loop and unwanted noise.

Strat Copper Pickguard Shield – \$9.99

All Shields will fit both righty and lefty Strats and Teles. Guaranteed to fit all Strats. This is NOT Copper Foil! This Copper is THICK. About the thickness of a business card. Don't settle for thin copper foil or hard to work with aluminum foil. These Copper Tone Shields are proven to offer better noise rejection than the original aluminum plates found on vintage 60s Strats. Plus, you cannot solder to aluminum but you can solder to copper.

FAT Strat Copper Pickguard Shield - - \$9.99

IMPORTANT - FAT Strats have two different pickup positions for the middle Strat pickup. Before you order you will need to measure the distance from the center of the neck pickup to the center of the middle pickup. One distance is approx. 2.1875" and the other will be approx. 2.375". Use the PayPal pull-down menu to choose the correct pickup distance measurement.

Conductive Copper Tape

Now in three widths to fit more jobs. Use this conductive copper tape to shield your pickups and control cavities to reduce hum, noise and radio interference. The self-adhesive backing is also conductive, so overlapped seams are electrically continuous. Wrap this tape around pickup coils for additional shielding. 180" rolls.

		0028	2" x 180" roll	\$8.79
0037	3/4" x 180" roll		\$5.76	
0036	1/4" x 180" roll		\$2.12	
0038	Set of all 3 widths		\$14.97
